FABRIC DOOR CANOPIES & WINDOW AWNINGS – MEASURING & ORDER FORM

Complete the necessary steps below and return this form to the store for order processing.
Special orders are not returnable. Please verify all information before ordering.

2700 Door Canopy

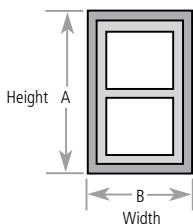

Step 1 Canopy Model Numbers 4 through 8: Using the chart provided, select the projection that best fits your needs. If mounting over an outswinging door use at least a model #7.
Step 2 Canopy Width: Measure outside width of door casing. Add at least 3" - 5" on each side for proper appearance. (Be sure light fixtures are not in the way). Custom widths up to 120" in 1" increments.
Step 3 Canopy Supports: Measure from top of door (B) to determine available space for mounting. Canopy requires 13" of mounting space (B).
Step 4 Color Choice: Select the Fabric color that best compliments your home. All canopy framework is in Bronze Finish. See backcover for fabric selection.

Canopy Model #	4	5	6	7	8
Projection	24"	30"	36"	41"	47"
CANOPY REQUIRES 13" MOUNTING SPACE (B)					
Drop	12"	13.5"	15"	17"	19"

ALUMINUM DOOR CANOPIES & WINDOW AWNINGS – MEASURING & ORDER FORM

Complete the necessary steps below and return this form to the store for order processing. Available in solid or striped pattern, (no additional charge). Sides available in solid color only. Undersides of all canopies will be white. Special orders are not returnable. Please verify all information before ordering.

2500 Door Canopy

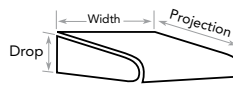

Step 1 Canopy Model Numbers 4 through 10: Using the chart provided, choose the appropriate canopy model# that matches the projection that best fits your needs. If mounting over an outswinging door use at least a model # 7.

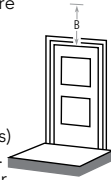

Step 2 Canopy Width: Measure outside width of door casing. Add at least 3" - 5" on each side for proper appearance (Be sure light fixtures are not in the way). Custom widths up to 180" in 1" increments.

Step 3 Canopy Supports: All canopies will be shipped with support arms unless optional sidings are ordered. Support arms require 3" of mounting space over door. If sidings are desired, measure from top of door (B) to determine available space for mounting. Standard sides require 13" (B). Low mount sides require 6" (B).

Step 4 Color/Pattern Choice: Select the color(s) and pattern that best compliments your home. The canopy top may be ordered in a solid color or striped pattern. Sidewings available in solid color only. See page 13 for color selection.

Drop and projections are approximate and may be changed by moving arm mounting location.

WHERE FASHION...

You're justifiably proud of your home, a place that is both beautiful and comfortable. After all, you work hard and this oasis is where you spend most of your leisure time. You want it to be as special as possible. NuImage Retractable Awnings are the ideal compliment to your home. Whether you want to make a bold fashion statement with our attractive stripe patterns or have your awning quietly blend in with the colors of your home we have the fabric to match. NuImage offers more than 45 beautiful Sunbrella fabric patterns to choose from so you are sure to find the ideal awning to compliment your style.

NuImage retractable awnings let you entertain on your deck or patio any time of the day and enhance the beauty and function of your outdoor living space. Our awnings are designed to be self-supporting so you can

enjoy your view without looking at ugly poles or supports. When your awning is open it's attractive look makes a stunning statement and when you don't need it your awning can be

easily retracted allowing it to blend with your home's exterior.

A NuImage retractable awning is a great way to add to both your home's aesthetic appeal and equity. We know that when it comes to your home, looks definitely count. That's why a NuImage retractable awning is the only choice.

Factory Directed Installations are available in most areas. Call us for details.

MEETS FUNCTION

Of course it is not all about looks. We know the main reason for buying a retractable awning is that you can't use your deck or patio on those blistering hot summer days. By adding a retractable awning you protect not only your home and it's furnishings, but most importantly yourself and your family from the harmful U.V. rays of the sun.

Shade When You Need It...

temperature by up to 15 degrees. That makes owning a retractable awning a smart investment. Retractable awnings ship standard with a manual hand crank for operation. Optional motorization with a remote control is smart, very smart, and available for a small additional cost. Surveys show that owners of motorized awnings use them 40% more than crank style because of ease of operation.

Sun When You Want it.

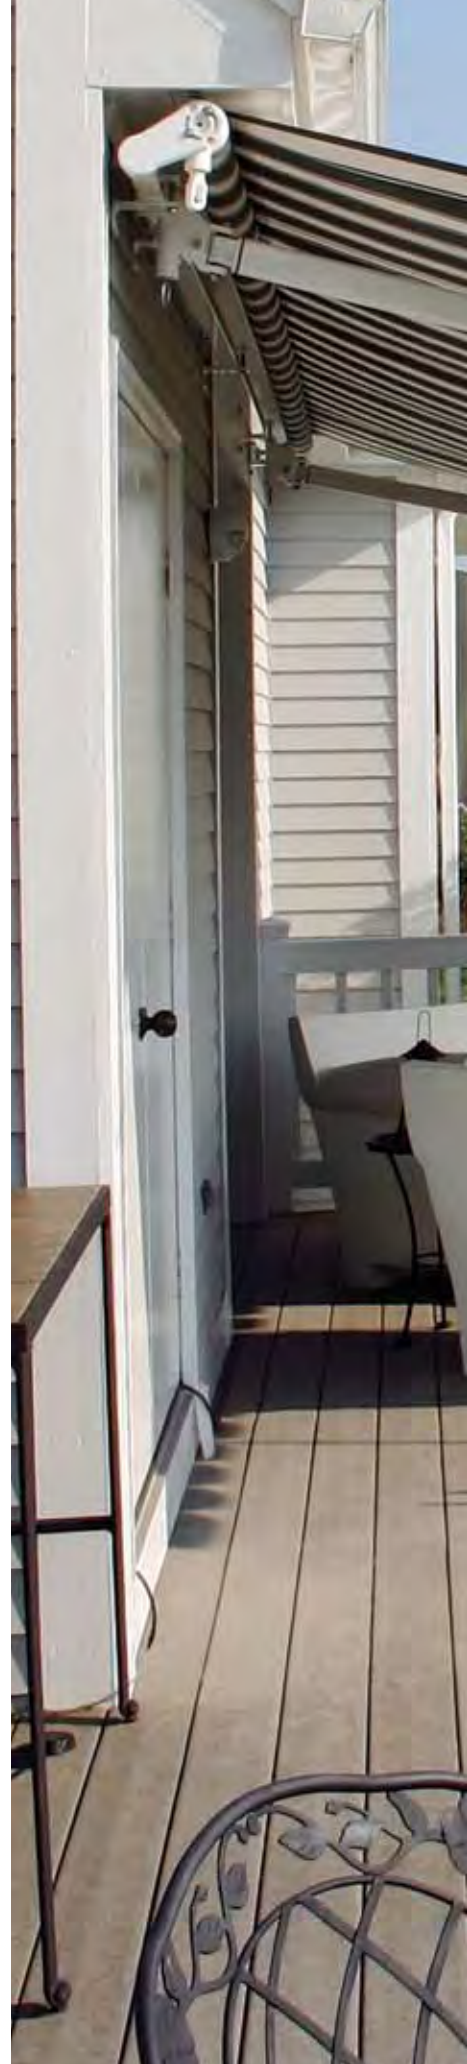

Roof Mount installation

Awnings Save You Money! Studies have been done by air conditioning professionals that clearly show that homeowners who install fabric awnings can reduce solar heat gain by up to 77% and lower the inside

Nulmage awnings are built from the finest materials and are made to last. We make every awning with the utmost care to your exact specifications and back it with the best warranties in the business.

Why waste another day sitting inside your home with the air conditioner running when you could be outside enjoying your deck or patio. Call us today, let's talk shade!

Choose From 13 Baked On Colors To Match Your Home

White Almond Mocha Tan Sandalwood Brick Red Burgundy Brown Evergreen Fern Green Slate Blue Bedford Blue Graystone Black

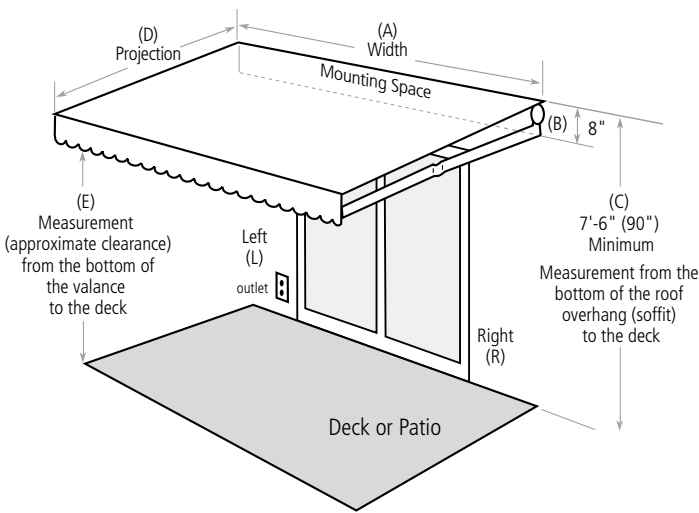

SERIES 6000XL (GOOD)

Simple, Functional and Affordable is the best way to describe this model. With four popular sizes coupled with six seamless vinyl top colors, we have the bases covered. Our white powder coated awning frame will never rust and provides manual pitch adjustment options. This awning boasts a contemporary design and will blend well with any homes exterior. Enjoy the shade on those hot sunny days and stay dry under the vinyl top during a light rain or mist (proper pitch required). Multi-layered seamless vinyl fabric is exclusive to this economy model and will provide years of lasting performance. Order now and you'll have it "Made in the Shade".

SERIES 7000 (BETTER)

This popular series retractable patio awning provides greater flexibility and choices. Functionality and Style are both accomplished here with the wide assortment of fabric colors and patterns from Sunbrella. Blended with the white aluminum awning frame, we are sure you will find just right combination to personalize your deck or patio. With 37 sizes to choose from, finding the right one to fit your needs will not be a problem. Take advantage of the 3 *Super Saver* widths of 11'-9", 15'-3" or 19'. Retractable awnings provide shade when you need it and sun when you want it! Protect your family and friends from harmful UV rays of the sun. Easy to Install and Simple to Operate.

Weatherguard Cover
Protects fabric when the awning is retracted from rain, snow & sun. Suggested, not required on motorized units or roof kit installations.

Flex-pitch Control
Available on 8000 Series only.

Heavy-duty arm has stainless steel chain for durability.

Measuring & Ordering Guidelines

Determine width of awning (A). This requires a clear span with no obstructions. Be sure light fixtures, down spouts, etc. are not in the way. The awning will require 8" of mounting space (B). A minimum of 7'-6" (90") is required from the deck or patio to the top of the mounting space (C). See chart for more detail.

Select the projection that best fits your needs (D). Awnings are available in over 45 beautiful fabric colors and patterns. Choose the one that best compliments your home. Fasteners for mounting on wood included.

**Operation. Facing the house specify the side you want the standard crank handle or motor. Outlet required for motor. If no selection is made, awning will ship with right hand operation.*

PATIO AWNING MOUNTING HEIGHT CHART

C= Measurement from top of mounting space to deck	Projection				
	5'9"	6'11"	8'6"	10'2"	11'8"
	E= Measurement from the bottom of the valance to deck				
7'6"	72"	72"	72"	70"	69"
8'	78"	78"	78"	76"	75"
8'6"	84"	84"	84"	82"	81"
9'	90"	90"	90"	88"	87"
9'6"	96"	96"	96"	94"	93"
10'	102"	102"	102"	100"	99"

The chart above denotes the maximum clearance with the pitch in the upper most position. Your new awning has been preset to this position at the factory. It does not require any further adjustment.

Roll-up Window Awning

NuImage awnings will add beauty and elegance to your home's exterior. Awnings will benefit the interior of your home as well by eliminating fading to carpets and furniture caused by damaging sun rays. Fabric window awnings will also help you save on summer cooling costs by reducing solar gain by up to 77% and the temperature in your home by up to 15 degrees. NuImage awnings and canopies are available in several styles to fit nearly every application. Like all fabric awnings they are not designed for use in snow. They are easy to remove and store for winter, and quickly re-attach in the spring. We have 45 beautiful Sunbrella® fabric patterns to choose from whether you want to make a bold statement or simply blend to your home's exterior decor.

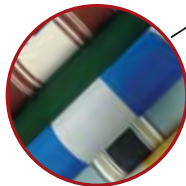

Heavy-duty mounting bar

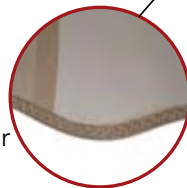

Center rafters provide added support and stability.

Choose from 45 fabric patterns in solids and stripes

Each awning is finished with a braid color to match.

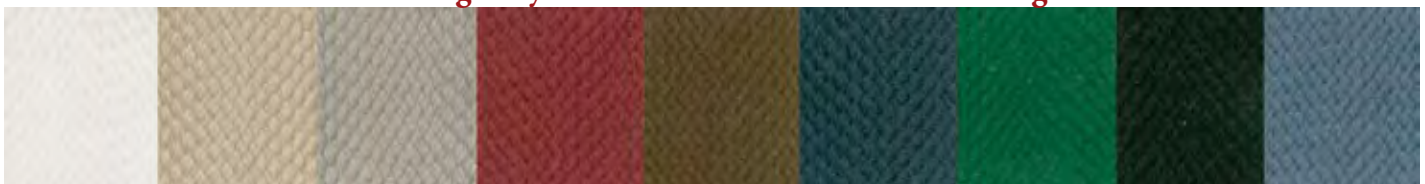

Bronze finish framework will never rust

Our sewn elastic tabs help keep your awning taut and flexible on your home.

Coordinating Acrylic Braid Colors Add That Finishing Touch

SERIES 8000 (BEST)

This awning is the "Top of the Line" when only "The Best will Do". Everything you need, Style, Flexibility, Elegance, Performance and most importantly Individuality are the standard with this model. Maximum shade control when the sun is at different positions is possible with our Exclusive Flex-Pitch Control. This feature will allow you to pitch your awning left to right and front to back with the simple twist of the hand crank. Italian styling and Elegant fabric choices from Sunbrella will make your awning the envy of the neighborhood. We will manufacture this model to any width you need up to twenty six feet in your choice of three frame colors. NuImage Awnings have passed European testing standards for TUV certification and are recommended by the Skin Cancer Foundation for protecting your family from harmful UV rays on those hot blistering days. It's the end of the day, "It's time to Unwind", It's NuImage!

Roof Mount Kit

Provides all necessary brackets for roof mount installation when wall space requirements cannot be met. Weatherguard Cover suggested not required when using Roof Mount Kit.

Motorized Operation

With our optional motor a simple push of a button opens or closes your awning effortlessly.

Studies show that motorized awnings are used 40% more than manual versions.

Our low profile front bar accents the framing detail of our awnings.

Retractable Awnings are not returnable. Verify all information before ordering.
