Measuring & Ordering Information

Complete the order using the following steps:

STEP 1

Canopy Model Numbers 4 through 10:

Using the chart provided, choose the appropriate canopy model# that matches the projection that best fits your needs. If mounting over an out swinging door use at least a model # 7.

STEP 2

Canopy Width: Measure outside width of door casing. Add at least 3" - 5" on each side for proper appearance (Be sure light fixtures are not in the way).

STEP 3

Canopy Mounting Space: Before installation, measure from top of door (B) to determine available space for mounting. Standard sidewings require 13". Low mount sidewings require 6".

STEP 4

Color/Pattern Choice: Select the color(s)* and pattern that best complements your home. The canopy top may be ordered in a solid color or striped pattern. Sidewings available in solid color only. Underside of canopy and sidewings are always white.
