Measuring & Ordering Information

Complete the order using the following steps:

STEP 1

Series Number: Select the awning Series number that's right for you: *Series 4100 with Support Arms* or *Series 4500 with Sidewings*.

STEP 2

Awning Model Numbers 6 through 9:

Measure window height (A) use chart to determine height model number. Casement awnings require a minimum of 6" above window for mounting. Windows opening more than 18" will require additional mounting space.

STEP 3

Awning Width: If mounting on casing, measure outside width of window casing (B). For wall mount, select any desired width, allow 1" on each side for mounting hardware. Arms cannot be mounted on shutters. Custom widths up to 90" in 1" increments.

STEP 4

Color/Pattern Choice: Select the color(s)* and pattern that best complements your home. The awning top may be ordered in a solid color or striped pattern. Sidewings available in solid color only. Underside of awning, sidewings and support arms are always white.
